222 years of iDSB - tradition, excellence and the future

In 2025, the International German School Brussels looks back on an impressive history: 222 years, making it one of the oldest and most renowned German schools abroad. Founded in 1803, even before the foundation of the Belgian state, the iDSB has since established itself as an institution that stands for educational quality and international networking.

Founded in 1803, the iDSB began its journey as the first point of contact for German families in Brussels. Since then, the school has offered a continuous educational pathway from kindergarten to the international German Abitur. This long tradition of educational excellence has been nurtured and developed over the centuries to meet the demands of an ever-changing world.

The iDSB has proudly held the 'Excellent German School Abroad' certificate since 2008 and was once again honoured with this award in the 2022/23 school year. This certification is a clear sign of the high quality of the school, which not only imparts knowledge but also promotes an intercultural learning environment.

However, it is not only the long history that characterises the image of the iDSB, but also the view into the future. The school continues to focus on innovation and further development in order to offer its students a future-proof education that is in demand both in the German and international world.

The iDSB is and will remain a place where tradition and the future are wonderfully combined. Here's to the next 222 years!

Germany: Federal election 2025

Liebe Familien aus Deutschland,

nachstehend eine Information der Deutschen Botschaft Ihnen zur Kenntnis.

Dear Sir or Madam,

We have received numerous enquiries due to the developments in Berlin. It is now possible to register on the electoral roll for an upcoming Bundestag election in 2025 and thus also apply for postal voting documents. In view of the presumably shortened deadlines, it is even advisable to do this as soon as possible.

The following applies:

- 1. Germans who are no longer registered/deregistered in Germany are not automatically entered on the electoral roll, but only on application.*
- 2. The relevant current application forms and information on registration in the voters' register were published by the Federal Returning Officer on 8 November 2024 on her website at https://www.bundeswahlleiterin.de/mitteilungen/bundestagswahlen/2025/20241108_mitteilung_AD.html*
- 3. The Federal Returning Officer recommends sending the application for entry in the electoral roll to the municipal authority as early as possible.*
- 4. Applications can be sent directly to the electoral offices in the municipalities with immediate effect.*

All important information on the procedure and the election dates can be found on the Federal Returning Officer's website: www.bundeswahlleiterin.de

Yours sincerely

German Embassy Brussels
